

Remote Entertainment Station

A convenient way to access television and entertainment

Curbell's entertainment station provides convenient wall-mounted control of a healthcare grade television, and up to four low-voltage room auxiliaries for visitor use. It allows supplemental television access without disturbing the patient, preserving a quiet atmosphere. It can also be used in waiting and lobby areas to eliminate the need for remote controls.

The Remote Entertainment Station provides easy access to the same TV features as a pillow speaker.

Visitors can watch television in the hospital room without disturbing the patient.

In waiting rooms, audio is brought to the seating area, helping to create a quieter atmosphere.

- ▶ Creates a visitor-friendly, home-like environment
- ▶ The Remote Entertainment Station is easily reprogrammed for any healthcare grade television
- ▶ Allows control of up to four room auxiliaries such as lighting, temperature, and drapes
- ▶ Two headphone jacks are ideal for creating a quieter environment
- ▶ Meets or exceeds UL-60065 and FCC Part 15 Class B
- ▶ Easy to install and repair
- ▶ Two year warranty
