At Curbell, we know pillow speakers. We’ve been making them since 1960, and we partner with every major nurse call manufacturer and hospital TV manufacturer in the country to make sure that all our pillow speakers operate safely and effectively in your healthcare facility.

When we started designing the first Gen4 pillow speaker line, we wanted it not only to be a new platform for the future, but a new way of thinking as well. Using over 45 years of experience designing and manufacturing the most popular pillow speakers in the world as our guide, we started from the ground up, combining the best features of our previous pillow speakers, suggestions from customers, and new materials and techniques to make Gen4 a step ahead of anything else in the nurse call industry today.

Call your Curbell representative today to find out how to start transitioning from your current pillow speakers to a new way of thinking — Gen4.

Gen4’s lightweight Comfort Grip case is comfortable to hold, and its smooth surface is easy to clean.

SUPERIOR SOUND
Clear, high quality sound to increase patient satisfaction.

REPAIRABLE
You can utilize Curbell’s repair service or choose to make basic repairs yourself, including quick cable replacement.

DURABLE
Gen4’s High-impact case material is designed to withstand over 100 drops onto a concrete floor without impacting its functionality.

VOLUME CONTROL OPTIONS
All models come standard with digital volume controls, and are available with analog volume for situations where two pillow speakers need to control one TV.

FLEX AND STRAIN RELIEF
Gen4’s long flex relief was designed for longer life and greater flexibility. The smooth design facilitates easy cleaning and resists dirt and grime buildup. Internal strain relief prevents damage to internal components.

COMFORT-GRIP CASE
Gen4’s lightweight case was designed to mimic the comfort and familiarity of a home remote.

EASY-TO-CLEAN CASE
The streamlined design facilitates quick and easy cleaning.

REPROGRAMMABLE FOR DIFFERENT TVs
There’s no need to manage multiple controls or keep a list of TV codes. The Gen4 platform is compatible with all pillow speakers in your facility. Each Gen4 Pillow Speaker can be quickly reprogrammed within seconds.

LARGE BUTTONS
Gen4’s large buttons are ergonomic to an auxiliary button to control volume, temperature, sleep, nurse call features, etc.

USER-FRIENDLY BUTTON LAYOUT
Each Gen4 button is labeled to an auxiliary button to control volume, temperature, sleep, nurse call features, etc.

EASY-TO-USE CASE
Gen4’s lightweight Comfort Grip case is comfortable to hold and the smooth surface is easy to clean.

OXGEN SAFETY
Don’t be fooled by pillow speakers that are labeled “UL Recognized.” The UL Recognized mark does not ensure the product has undergone oxygen safety testing or that the nurse call accessory has been tested with the nurse call system it is intended to be used with. Many of our Gen4 Pillow Speakers are UL Listed and tested with the nurse call system and verified for safe use in an oxygen-enriched atmosphere. For more information on oxygen safety, visit www.oxygensafe.com.

REGULATORY COMPLIANCE
According to 21 CFR 809.3710, powered communication systems and their accessories are considered Class II medical devices. As such, Curbell manufactures our nurse call communication accessories in compliance with this regulation.

The FDA regulates all products and manufacturers within this regulation. Curbell’s quality system complies with current Good Manufacturing Practices (cGMP) per 21 CFR 820 and is ISO 13485:2003 Medical Devices – Quality Management Systems certified.

INFECTION CONTROL
We designed Gen4 with infection control in mind. A single hospital-acquired infection can cost your facility tens of thousands of dollars, so we made sure that Gen4 was fully sealed. Our proprietary design helps prevent infectious contaminants from getting into the pillow speaker, where they could be passed from patient to patient in the hospital. Gen4’s smooth shape makes it quick and easy cleaning, ensuring that dirt and grime cannot collect on the unit.

FLEX AND STRENGTH RELIABILITY
Gen4’s long flex relief was designed for longer life and greater flexibility. The smooth design facilitates easy cleaning and resists dirt and grime buildup. Internal strain relief prevents damage to internal components.

TOOL-Less INSTALLATION
Gen4’s long flex relief was designed for longer life and greater flexibility. The smooth design facilitates easy cleaning and resists dirt and grime buildup. Internal strain relief prevents damage to internal components.

ADDITIONAL FEATURES

OXYGEN SAFETY
Don’t be fooled by pillow speakers that are labeled “UL Recognized.” The UL Recognized mark does not ensure the product has undergone oxygen safety testing or that the nurse call accessory has been tested with the nurse call system it is intended to be used with. Many of our Gen4 Pillow Speakers are UL Listed and tested with the nurse call system and verified for safe use in an oxygen-enriched atmosphere.
