

IPS Edge LED Super Narrow Bezel

▶ **32WL30MS-B**

32" class (31.5" measured diagonally)

Features

TCO Total Cost of Ownership

The 32WL30MS-B display is Energy Star® 5.1 compliant consuming approximately 40% less energy than non-compliant models. In standby mode, they use less than one watt of power and meet the environmental regulations such as EPA and Erp, while excluding the use of harmful materials (RoHS) and reducing CO2 emissions.

IPS In Plane Switching

Super IPS accurately display an image's quality and color at an 178° ultra wide viewing angle. There is no fall-off in color accuracy and no diversion in contrast ratio at wide angles. From bright sunlight to the most challenging lighting environments these displays are designed to reproduce and maintain the ultimate color temperature for lifelike images.

BEZEL WIDTH

The 32WL30MS-B with improved bezel widths of 18.9mm (left/top)/26mm (right/bottom) will draw attention to screen images and not the display for impactful messaging. With the ability for a 15x15 matrix the image will almost seamlessly broadcast larger than life images.

Specifications

Native Display Resolution 1920 X 1080 (FHD)

High Brightness 400 cd/m²

Contrast Ratio 1,300:1 (Typ.), 500,000:1 (DCR)

Super IPS 178° Viewing Angle viewing angle and life expectancy enhanced in portrait and landscape mode

Viewing Angle and Life Expectancy Portrait and Landscape Mode

RGB, DVI, HDMI and DP

RJ-45 LAN Control

RS-232C Control

Convenient External Speaker-Out

Energy Star® 5.1 compliant

Smart Energy Saving

Split Zoom (Self Video Wall) Up to 15 x 15 matrix

Bezel Width 18.9mm (left/top)/26mm (right/bottom)

Temperature Sensor

USB Playback

3-Year Limited Warranty Parts/Labor/Backlight

IPS Superb Picture Quality

NO BLACKENING DEFECT

Display has a built-in temperature control that adjusts to light and heat eliminating dark or blackened areas.

If the outdoor temperature is 86°F the surface temperature of display is 185°F

TRUE WIDE VIEWING

Color changes and distortion are eliminated from any viewing angle.

Color change average @ 60°
Gamma change average @ 60°

PANEL STABILITY

Minimized image distortion when external pressure is applied.

IPS Normal

Wide Viewing Angle

Provides a clear image virtually at any angle.

LED

High Picture Quality & Brightness

Clear and vivid picture quality with the deepest black. Consumes approximately 40% less energy the LCD models.

Improved Bezel & Depth

Smart Energy Saving

Reduce energy consumption by approximately 30%

Easy & Fast Delivery of Content

USB multi-media playback.

24/7 Operation

The strength of LG's PD Module allows operation 24 hours a day. It is highly effective and provide continuous performance.

LIFE'S GOOD...

when it's green.

LG is committed to improving product development, manufacturing and usage to meet the demand for products with environmentally friendlier features. Our televisions have technologies to reduce power consumption and in return increase cost savings per room.

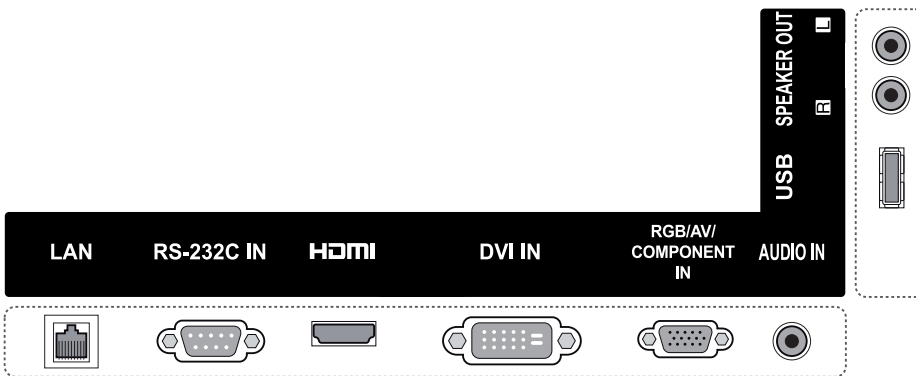

EcoSmart

- **Intelligent Sensor** - Continually monitors room light conditions to automatically optimize the picture quality for a more enjoyable viewing experience, which can help save energy.
- **Dynamic Power Savings** - Using built-in algorithms, TV will automatically reduce the power consumption based on incoming video, while maximizing picture performance.
- **Static Power Savings** - Picture brightness level can be set at the preferred power consumption level to reduce power and increase energy savings.
- **CEC Compliant** - Meets the Appliance Efficiency Regulations of the California Energy Commission.
- **RoHS Compliant** - Meets directive on restriction of hazardous substances.
- **Energy Star 5.1 Qualified** - Meets current reduction requirements of energy consumption.
