A personal entertainment experience designed for comfort.

**ELEVATE EXPECTATIONS**
The medTV™ arm-mounted display reduces neck, back and eye strain by allowing patients to position the device for their viewing comfort. The medTV™ display is equipped with MPEG4 and Pro:Idiom giving access to more HD channels. Its simple touch keypad easily controls volume and channels.

**SUPERIOR VIEWING EXPERIENCE**
The medTV™ provides a high-quality viewing experience in close proximity to the patient. 14” display placed near the viewer is equal with a 90” TV screen across the room.

**CLEAN DESIGN WITH SAFETY IN MIND**
The medTV™ is designed for infection control. The full glass front and antimicrobial plastics help limit HACs and are durable for rigorous cleaning.

**NEW RF-HEMiS™** Centrally manage medTVs using the RF-HEMiS Head-end Management Integrated TV System by PDi. Set it and forget it.
KEY FEATURES

UL Listed, low voltage, widescreen HDTV

Easy access to favorite channels with direct entry channel buttons.

Front headphone jack minimizes noise and keeps the floor/unit quiet

Extended panel life, designed to last more than 7 years when powered on 18+ hrs/day

New RF-HEMiS or easy USB cloning makes TV set-up and updates quick and simple

Password protected set-up menus prevent patients from altering settings with IR remotes or remote control phone apps

Channel aliasing and remapping allows facility to customize and simplify channel line-ups

Compatible with PDi swing arms or available as VESA 75 x 75 mm mount resulting in a mounting solution for any situation

Standard cabinet color is Starlight Gray. Ask about black or cream.

Designed, Programmed and Assembled in U.S.A.
