Persona™ P14W
LED Backlit, Healthcare-grade, Low Voltage, Swing-arm LCD Widescreen HDTV

The Persona™ P14W personal arm-mounted patient entertainment set is PDi’s first LED backlit personal arm-mounted widescreen TV. This set offers a thin, modern design and great HD picture quality in 1366 x 768 display resolution on a 14” diagonal screen!

Compatible with many existing PDi swing arms in use today, weighing only 7 lbs, this set is sure to please facility administrators, managers and staff. Plus the simple capacitive touch keypad and 5-channel history recall is sure to satisfy patients and minimize television instruction by staff. The distinct backlit keypad allows for easy operation in low light or night time conditions.

The P14W is equipped with MPEG4 and Pro:Idiom which allow access to more HD channels using DirectTV or satellite programming. Cloning is easy via the external USB.

Like all PDi sets, the Persona™ P14W has the optional 4 year Gold Vision Service Plan. Two-year factory warranty is standard.
