

## Peace of Mind

# Thermal Body Temperature Scanner Kiosk

Save time and keep your patients, staff, and visitors safe.

Selling fast! Order this body temperature scanner kiosk to automatically check the body temperature of everyone who enters your facility. Whether you need facial recognition, a door-unlock interface, or simple temperature reporting, this scanner will serve your facility staff, patients and visitors with a first line of defense against the spread of COVID-19 or other contagious illnesses.

Maintain a safe and healthy workplace with no-contact reading and allow this temperature kiosk to help save time so your staff can focus on their primary job: providing excellent care for patients.

- Fast
- Highly Accurate
- Easy to Implement
