

*Better solutions are within reach®*

## **TRANSFORM THE PATIENT EXPERIENCE**

Create an interactive environment centered around the patient. A personal arm-mounted TV or TV-TABLET system brings comfort, entertainment and connectivity to the patient's bedside.

## **REDUCE BACK, NECK AND EYE STRAIN**

With a light touch, patients can lift, swing, tilt, or rotate their display to the most comfortable viewing angle.

## **STABILITY AND SECURITY**

Your technology investment is secure. Arm-mounted displays deter theft and eliminate the risk of damage from devices being dropped.

## **INTELLIGENT CABLE MANAGEMENT**

Make the patient room a clean, cable free zone. Power cords, ethernet cables, coax and more are out-of-sight within the arm for continuous power and connection.

*"...severe headaches made it difficult for my father to wear his glasses, but the TV swing arm allowed him to pull the television close and alleviate his boredom between visits from family and friends."*

**- Rich C., OH**

# 1400 Series Arm

## INTELLIGENT CABLE MANAGMENT

Changing cables in the 1400 Series arm is a snap. There is no need to remove the arm from the wall to replace cables. Simply adjust cables by removing the newly designed plastic shields, make your changes and re-insert the shields. The 1400 Series arm can accomodate up to 5 cables.

## FEATURES:

68" Reach  
Nitrogen Cylinder-Based Lift Design  
UL Listed  
Anti-Recoil and Swivel Safety Features

## We have an arm for that.

Since 1980, Ohio-based PDi Communication Systems, Inc (PDi) designs, manufactures and builds more healthcare-grade, arm mounted bedside systems than anyone in the industry. PDi's innovative designs allow arms to be mounted to headwalls, counters, floors, ceilings, chairs, and more. PDi bedside systems include UL-Listed medTV and medTAB TV-TABLET products, in addition to low-voltage power supply products and accessories.

PDi delivers engineering expertise to your project plans to ensure the right system that works in every unique patient environment. Ask PDi ProServices to help create or install the patient experience you need. We are with you every step of the way.
