GENiO™
## powered by PDi

Customize Your Patient TV Experience

When simple TV is not enough

Customize your med**TAB**® with GENiO™. GENiO gives you the power and flexibility to provide a customized patient user interface affordably and easily.

Create a custom user interface for your medTABs to deliver the education, entertainment, and information your patients need.

Part Number	Custom User Interface PDI-GUI
Pricing	One-time up-front fee
Updates to User Interface	Requires additional fee
PDi helps you create your custom experience for your patients. **Customization includes:**	
Main Menu and Submenus	Main menu and submenus with up to 10 icons. Select from GENiO's many standard icon options or for a small fee of $150, PDi will design a custom icon to meet your specific requirements.
Customized Education	Deliver your preferred education with weblinks to your patient education portal or to publicly available videos and websites
Branding/Logo	Change the medTAB logo to your own logo. With GENiO, PDi can follow your brand standards to change the background colors or apply a picture background.
Branding/Internet	Change the standard home page (google.com) to your facility website or any website
Icons, Apps, & More	Enhance the patient experience with applications for video calls, streaming services, links to daily menus, music, translation services, and much more
